# Education for an Information Age

## Teaching in the Computerized Classroom

### 5th Edition

by

Bernard John Poole, MSIS  
University of Pittsburgh at Johnstown  
Johnstown, PA, USA

and

Elizabeth Sky-McIlvain, MLS  
Least Tern, Maine, USA

with

Lorrie Jackson, MAT  
Lausanne Collegiate School  
Memphis, TN, USA

Published on-line and freely available at

Front Matter

Dedicated to

Lucy Poole  
Bernard's mother, 95 years young, February 15, 2004

Anne Giorgio  
Marilyn Giorgio-Poole's mother, 89 years young, December 23, 2003

Marilyn Giorgio-Poole, PhD  
Bernard's wife, whose dogged determination to complete a task once begun has inspired him in the completion of many a tough task, including this book

Zsolt Poole  
Marilyn and Bernard's son, who is busy completing a significant task of his own just now as he nears completion of his undergraduate degree in Electrical Engineering

John McIlvain, Willa Sky Bacon  
and every teacher and administrator who looks to the 21st Century

John Mark Jackson, husband  
I love you and yes,  
we'll write an Office X for Mac book eventually...

Amy Marie Jackson, daughter  
I love you and yes,  
I know you prefer bottles over bytes right now but someday...

**Brief Contents**

|                     |   |                     |  |
|---------------------|---|---------------------|--|
| <b>Introduction</b> |   | <b>Chapter 11</b>   | <b>Multimedia Authorware—Creating Learning Tools</b><br>A summary of the ways in which teachers can author their own learning systems  |
| <b>Chapter 1</b>    | <b>Technology Use in Teaching and Learning: What's the Return on Investment (ROI)</b><br>A presentation of the evidence supporting computer use in schools    | <b>Chapter 12</b>   | <b>Funding Technology Projects</b><br>A presentation of the ins and outs of raising money to fund educational technology projects  |
| <b>Chapter 2</b>    | <b>Computer Hardware for Education Environments</b><br>An overview of the nuts and bolts of computing   | <b>Chapter 13</b>   | <b>Computers, Education, and Society</b><br>An overview of the ways in which computers are transforming the world in which our students live   |
| <b>Chapter 3</b>    | <b>Software Systems for Microcomputers</b><br>A discussion of the different types of software used with today's computing systems                             | <b>Chapter 14</b>   | <b>Reflections on Education for an Information Age</b><br>An examination of the theoretical validation of computer-based teaching and learning, and of the problems translating theory into practice |
| <b>Chapter 4</b>    | <b>Educational Computing Environments</b><br>An examination of the issues and logistics involved in the establishment and integration of computers in schools |                     |  |
| <b>Chapter 5</b>    | <b>Computer-Managed Instruction (CMI)</b><br>The computer as a useful tool to aid the teacher in and out of the classroom                                     | <b>APPENDICES</b>   |  |
| <b>Chapter 6</b>    | <b>Computer-Assisted Instruction (CAI)</b><br>An overview of the ways in which computer technology can help students' learn                                   | <b>Appendix</b>     | <a href="#">A History of Computers (PowerPoint)</a>  |
| <b>Chapter 7</b>    | <b>Computers and Communications</b><br>An examination of how computers and communications extend education's reach  | <b>BIBLIOGRAPHY</b> |  |
| <b>Chapter 8</b>    | <b>e-Learning and Information Literacy</b><br>An examination of the pros and cons of the internet as a medium for doing education                             | <b>INDEX</b>        |  |
| <b>Chapter 9</b>    | <b>Education On-Line: Tools for Online Learning</b><br>Reconciling the benefits of online learning with the challenge of using the Internet in the classroom  |                     |  |
| <b>Chapter 10</b>   | <b>Educational Multimedia</b><br>A review of the power of technology to enrich the learning experience across the range of intelligences                      |                     |  |

## Full Table of Contents

|   |           |
|---|-----------|
| <b>Introduction.....</b>  | <b>1</b>  |
| The Challenge of Change.....  | 1         |
| The Need for Change.....  | 1         |
| Teachers Make a Difference.....   | 2         |
| Objectives of the Text.....   | 3         |
| New in the 5 <sup>th</sup> Edition.....   | 5         |
| Conclusion.....   | 6         |
| <br>  |           |
| <b>Chapter 1 Technology Use in Teaching and Learning: What's the Return on Investment (ROI).....</b>                          | <b>7</b>  |
| Learning Outcomes.....  | 7         |
| Introduction.....   | 8         |
| Sources for research and other findings.....  | 9         |
| What general Conclusions can be drawn from the research?.....   | 11        |
| In what ways does digital (computer-based) technology enhance teaching and learning?.....                                     | 14        |
| When used effectively, the computer is a valuable tool in support of learning....   | 14        |
| When used effectively, the computer is a valuable tool in support of teaching ...   | 15        |
| When used effectively, the computer is a valuable tool in support of children's socialization.....                            | 16        |
| Computers and related technologies enable children with disabilities to integrate successfully into the education system..... | 16        |
| Software that is well designed to support learning enables a teacher to duplicate excellence.....                             | 16        |
| Computers, the Three R's, Science, and Social Studies.....  | 17        |
| The Three R's.....  |           |
| Science.....  | 25        |
| Social Studies.....   | 26        |
| So why is it taking so long for schools to change?.....   | 27        |
| <br>  |           |
| <b>Chapter 2 Computer Hardware for Education Environments.....</b>  | <b>31</b> |
| Learning Outcomes.....  | 31        |
| Electronic Computers Were Invented to Meet Educational Needs.....   | 32        |
| The Components of a Basic Personal Computer System.....   | 33        |
| The monitor.....  | 34        |
| The system unit and primary memory.....   | 35        |
| The Keyboard.....   | 38        |
| Disk Drive(s).....  | 40        |
| Printers.....   | 44        |
| The Mouse.....  | 44        |
| The Components of a Multimedia Educational Computing System.....  | 45        |

Front Matter

|   |           |
|---|-----------|
| Mass Data Storage Systems .....   | 45        |
| Display Devices .....   | 46        |
| Speakers .....  | 47        |
| Scanners .....  | 48        |
| Digital Cameras and Digital Video Cameras.....  | 48        |
| Visual Presenters (also called a Visualizer or Document Camera) .....                         | 48        |
| Maintaining Your Computer System.....   | 49        |
| General Do's and Dont's .....   | 49        |
| Taking Care of Disks .....  | 50        |
| Organizing your data on disk.....   | 52        |
| Printers for multimedia systems.....  | 53        |
| <br>  |           |
| <b>Chapter 3 Software Systems For Personal Computers .....</b>                                | <b>57</b> |
| Learning Outcomes.....  | 57        |
| The Layers of Software.....   | 58        |
| Firmware: Software that is part of the computer's hardware .....                              | 59        |
| The Operating System.....   | 61        |
| A definition of a traditional operating system .....  | 61        |
| The definition of a modern operating system .....   | 62        |
| Utilities.....  | 63        |
| Common Operating System functions .....   | 64        |
| Useful user-controlled operating system functions .....                                       | 68        |
| The Graphical User Interface (GUI).....   | 68        |
| The Problem of Nonstandard User Interfaces.....   | 68        |
| Standardization through Integrated Software or Suites of Programs .....                       | 69        |
| Standardization through Graphical User Interfaces.....  | 70        |
| Some background history of the GUI .....  | 71        |
| GUIs and Educational Psychology .....   | 73        |
| Applications Software.....  | 75        |
| <br>  |           |
| <b>Chapter 4 Educational Computing Environments.....</b>                                      | <b>80</b> |
| Learning Outcomes.....  | 80        |
| Introduction.....   | 82        |
| First Things First: Training for the Teachers.....  | 84        |
| ISTE Educational Technology Foundations for Teachers.....                                     | 84        |
| Safety First: Computers and Health.....   | 90        |
| Extremely Low Frequency (ELF) Electronic Emissions .....                                      | 90        |
| Carpal Tunnel Syndrome (CTS) .....  | 91        |
| Ergonomics to the Rescue.....   | 92        |
| Other Ergonomics-Related Recommendations.....   | 94        |
| Summary of Safety and Ergonomics Recommendations.....   | 98        |
| Computer setup .....  | 99        |
| Computers in the Classroom.....   | 100       |
| The Planning, Design, and Management of the Computer Lab or<br>Multi-Computer Classroom ..... | 103       |
