Education for an Information Age

Teaching in the Computerized Classroom

7th Edition

by

Bernard John Poole, MSIS
University of Pittsburgh at Johnstown
Johnstown, PA, USA

and

Elizabeth Sky-McIlvain, MLS
Least Tern, Maine, USA

with

John Evans, MS
Boise State University

Published on-line and freely available at

Dedicated to

Lucy Poole

Bernard's mother, 97 years young, February 15, 2006

Anne Giorgio

Marilyn Giorgio-Poole's mother, 91 years young, December 23, 2006

Marilyn Giorgio-Poole, PhD

Bernard's wife, whose dogged determination to complete a task once begun has inspired him in the completion of many a tough task, including this book

Zsolt Poole

Marilyn and Bernard's son, who is busy completing a significant task of his own just now as he nears completion of his Masters' degree in Electrical Engineering at the University of Pittsburgh

John McIlvain, Willa Sky Bacon

and every teacher and administrator who looks to the 21st Century

Front Matter
Brief Contents

Introduction		Chapter 10	Multimedia Authorware—Creating Learning Tools A summary of the ways in which teachers can author their own learning systems
Chapter 1	Technology Use in Teaching and Learning: What's the Return on Investment (ROI) A presentation of the evidence supporting computer use in schools	Chapter 11	Funding Technology Projects A presentation of the ins and outs of raising money to fund educational technology projects
Chapter 2	Computer Hardware for K-12 Education An overview of the nuts and bolts of computing	Chapter 12	Computers, Education, and Society An overview of the ways in which computers are transforming the world in which our students live
Chapter 3	Software Systems for Microcomputers A discussion of the different types of software used with today's computing systems	Chapter 13	Reflections on Education for an Information Age An examination of the theoretical validation of computer-based teaching and learning, and of the problems translating theory into practice
Chapter 4	Educational Computing Environments An examination of the issues and logistics involved in the establishment and integration of computers in schools		
Chapter 5	Computer-Managed Instruction (CMI) The computer as a useful tool to aid the teacher in and out of the classroom		
Chapter 6	Computer-Assisted Instruction (CAI) An overview of the ways in which computer technology can help students' learn	APPENDICES	
Chapter 7	Computers and Communications An examination of how computers and communications extend education's reach	Appendix	A History of Computers (PowerPoint)
Chapter 8	e-Learning and Information Literacy An examination of the pros and cons of the internet as a medium for doing education	BIBLIOGRAPHY	
Chapter 9	Educational Multimedia A review of the power of technology to enrich the learning experience across the range of intelligences		

Full Table of Contents

Introduction.....	1
The Challenge of Change	1
The Need for Change	1
Teachers Make a Difference	2
Objectives of the Text	3
New in the 6 th Edition.....	5
Conclusion.....	6
Chapter 1 Technology Use in Teaching and Learning: What's the Return on Investment (ROI)	7
Learning Outcomes	7
Introduction	8
Sources for research and other findings	9
What general conclusions can we draw from the research?	10
In what ways does digital (computer-based) technology enhance teaching and learning?.....	14
When used effectively, the computer is a valuable tool in support of learning	14
When used effectively, the computer is a valuable tool in support of teaching	15
When used effectively, the computer is a valuable tool in support of children's socialization.....	15
Computers and related technologies enable children with disabilities to integrate successfully into the education system	16
Software that is well designed to support learning enables a teacher to duplicate excellence.....	16
Summary of research outcomes	17
The Three R's	17
Science	24
Social Studies	25
Computer-assisted collaborative learning.....	26
One-to-one computing	27
Why is it taking so long for schools to change?.....	28
Computer-integrated teaching and learning: The Ten Pillars of Success	30
Looking Back	31
Looking Forward	31
Chapter 2 Computer Hardware for K-12 Education	33
Learning Outcomes	33
Electronic Computers Were Invented to Meet Educational Needs	34
The Components of a Personal Computer System.....	36

EDUCATION FOR AN INFORMATION AGE
Teaching In The Computerized Classroom, 7th edition

Front Matter

The monitor	37
The system unit	38
The keyboard and other input devices	40
Disk Drive(s).....	41
Printers.....	46
The Mouse	46
The Components of a Multimedia Educational Computing System	46
Mass Data Storage Systems.....	47
Display Devices	48
Speakers.....	49
Scanners.....	49
Digital Cameras and Digital Video Cameras.....	49
Visual Presenters (also called Visualizers or Document Cameras)	49
Maintaining Your Computer System.....	50
General Do's and Dont's.....	50
Taking Care of Disks.....	51
Organizing your data on disk	52
Printers for multimedia systems	54
Looking Back	55
Looking Forward	55
Chapter 3 Software Systems For Personal Computers.....	56
Learning Outcomes	56
The Layers of Software.....	57
Firmware: Software that is part of the computer's hardware.....	59
The Operating System.....	60
A definition of a traditional operating system	60
The definition of a modern operating system.....	61
Utilities	62
Common Operating System functions	63
Useful user-controlled operating system functions	67
The Graphical User Interface (GUI)	67
The Problem of Nonstandard User Interfaces.....	67
Standardization through Integrated Software or Suites of Programs	68
Standardization through Graphical User Interfaces	69
Some background history of the GUI	70
GUIs and Educational Psychology	72
Applications Software	74
Looking Back	75
Looking Forward	76
Chapter 4 Educational Computing Environments	78
Learning Outcomes	78
Introduction.....	80

Front Matter

First Things First: Training for the Teachers.....	83
ISTE Educational Technology Foundations for Teachers.....	83
Safety First: Computers and Health.....	86
Extremely Low Frequency (ELF) Electronic Emissions	86
Carpal Tunnel Syndrome (CTS)	87
Ergonomics to the Rescue.....	88
Other Ergonomics-Related Recommendations	90
Summary of Safety and Ergonomics Recommendations.....	93
Computer setup	94
Computers in the Classroom.....	94
The Planning, Design, and Management of the Computer Lab or Multi-Computer Classroom (One-to-One Computing)	97
Recommendations for Lab or Multi-user Classroom Management	99
Looking Back	101
Looking Forward	101
Chapter 5 Computer-Managed Instruction (CMI)	102
Learning Outcomes	102
Introduction	103
People, Not Computers, Increase Productivity.....	103
The Computer Is Here to Stay.....	104
Success with Computers Does Not Come Easily.....	104
Teachers and Productivity Applications	105
The Word Processor.....	106
The Database	107
The Spreadsheet.....	107
Drawing and Painting Applications	108
Clip Art.....	110
Learning Assets.....	111
Charts and Graphs.....	111
Integrated Applications.....	112
Presentation (Authoring) Software	113
Managing with <i>PowerPoint</i> (or Other Presentation Application)	114
Web-based Presentations	115
Multimedia Applications.....	116
Graphical Organizers	117
Communications Software.....	118
Useful Utilities.....	120
Other Utilities.....	122
Other Elements of CMI.....	122
Using Electronic Templates	122
Preparing and Maintaining Curricula and Syllabi	124
Curriculum Mapping	126
Preparing Learning Materials.....	127
About Boards.....	128

Front Matter

Desktop Publishing.....	128
Extending Your Productivity Toolkit with the Web	128
Assessment	129
Portfolios	130
Rubrics.....	130
Tests	132
Using the Computer to Generate Tests	133
Grading Tests.....	134
Distance Learning.....	134
The Smart Classroom.....	135
Computer-Coordinated Classrooms	135
Managing and Guiding Students	136
Communicating Between Home and School	138
Looking Back	140
Looking Forward	140
Chapter 6 Computer-Assisted Instruction (CAI)	142
Learning Outcomes	142
Introduction	144
Children Want to Learn	144
Technology Tools: Students and Productivity Software.....	144
Productivity Software is a Platform for CAI	145
Word Processing	146
Database Management.....	148
Spreadsheets and Charting tools	150
Drawing and Painting—Graphics Tools.....	152
Authoring or Presentation Software.....	155
Graphical Organizers	156
Communications.....	158
Technology Tools and Testers: Classifications of CAI	159
Caveat: The Teacher Should Come Bundled with the Software.....	159
Software for Drill & Practice	159
Software for Tutorials	162
Software for Simulations and Gaming.....	163
Software for Critical Thinking and Problem Solving	167
Software for Supporting Learning	169
Computer-Based Laboratories (CBLs).....	170
Programming and Problem-Solving	172
Integrated Learning Systems (ILS’s).....	173
Software Evaluation.....	175
The Design of Effective Software Evaluation Instruments.....	175
The Process of CAI System Evaluation and Purchase	176
Looking Back	177
Looking Forward	177

Front Matter

Chapter 7 Computers and Communications	179
Learning Outcomes	179
The Scope of Communications	180
Computers & Communications (C&C)	181
Technology Transfer and the Challenge Posed by User Demand	182
Explosion in End-User Computing.....	183
The Expansion of C&C in Schools.....	183
A Vision for the Future.....	184
Computer Networks.....	185
Computers.....	185
Communications Channels.....	185
Modems and Fax/Modems.....	186
Other Communications Hardware and Software	188
Different Kinds of Computer Networks: LANs, WLANs, WANs and MANs.....	189
Applications of Computer Networks	192
Telecommunications.....	193
Hardware Device and Software Sharing.....	194
The Case for Computer Networks.....	195
Implementing Computer Networks.....	196
Recommendations for Successful Introduction of Computer Networks in Schools.....	198
The Impact of Computer Networks in Education.....	199
Home-School Communications	200
Schools Need Parents	200
Parents Need Help, too!	200
The Schools Must Take Responsibility	202
The Importance of the Student-Parent-Teacher Gestalt.....	202
The <i>TransParent School</i> Model.....	203
Outcomes of the <i>TransParent School</i> Model	203
C&C Today—Extensions of the TransParent School Model	204
The Importance of Choice	204
Looking Back	205
Looking Forward	206
 Chapter 8 e-Learning and Information Literacy	 207
Learning Outcomes	207
Reflections on the Learning Process	208
Data-Rich, Information-Poor	209
The Transfer of Data to Information is a Unique Individual Experience.....	210
What is e-Learning?	212
Why e-Learning is Important	212
The e-Learning Environment	213
A Distance Learning Example.....	215
Tools for e-Learning.....	218

Front Matter

Model e-Learning Projects.....	221
Design Considerations for Effective e-Learning	222
Information Literacy and Internet Concerns.....	223
Searching the Internet: Search Engines	224
Search Strategies.....	224
Behaving (netiquette) on the Internet.....	225
Filtering and Other Issues: Can We Control the Content of the Internet Without Censorship?.....	227
PICS: The Platform for Internet Content Selection	230
Plagiarism and copyright violations.....	231
Other Problems with Internet Use.....	232
Savvy Searching of the Web	234
Looking Back	234
Looking Forward	234
Chapter 9 Educational Multimedia	235
Learning Outcomes	235
Introduction	236
The Importance of the Senses in Learning.....	236
AV/IT—AVAsGo High-Tech.....	238
The Concept of Computer-Based Multimedia.....	240
Multimedia Has Added a New Dimension to the Process of Teaching and Learning	241
Multimedia Authoring Tools.....	241
Multimedia Hardware.....	242
Data Capture Devices.....	242
Data Storage Technology	248
Data Display Devices.....	250
Software for Media Object Production	253
Hypermedia Systems: Bringing It All Together.....	255
Hypertext	255
Hypermedia.....	256
Hypermedia and the Internet.....	257
Media Literacy	258
Using Copyrighted Materials	258
Fair Use.....	259
Some Suggestions	260
Model Schools	260
Looking Back	263
Looking Forward	263

Chapter 10 Multimedia Authorware—Creating Learning Tools	265
Learning Outcomes	265
Introduction: Programming Is Hard.....	266
Why Should Teachers Learn About Software Development?.....	267
Some Historical Background on Programming Languages	267
Knowledge is Power.....	269
Characteristics of Quality Authorware.....	270
Quality Authorware puts the non-technical user's needs first	270
Quality Authorware is crafted with care and is relatively bug-free.	271
Quality Authorware makes the computer appear to be almost human in its responsiveness and anticipation of user needs.....	271
Quality educational software will eventually have to move to far more powerful computer systems than even those that are state of the art in classrooms today.....	272
Authoring Programs: How Teachers Can Get Involved	273
<i>KidPix Deluxe(KidPix 4)</i>	274
<i>HyperStudio</i>	276
<i>PowerPoint</i>	276
Night Kitchen's <i>TK3</i>	277
Programming on the Web.....	277
HTML, JavaScript, DHTML, and JAVA.....	278
Web Page Editors.....	280
Online Solutions	281
Elements of an Effective Educational Website.....	282
Authorware Essentials.....	284
Looking Back	285
Looking Forward	286
Chapter 11 Funding Technology Projects	287
Learning Outcomes	287
Introduction: Everything Points to an Increase in the Cost of Education.....	288
The Goals of Education in an Information Age.....	290
The Five Competencies of Effective Workers	291
The Foundation Skills Required of Effective Workers.....	291
Sources of Funding and Support	292
Preparing Grant Proposals.....	295
Steps in the Preparation of a Grant Proposal.....	295
Strategies for Successful Applications.....	296
The Qualities of a Grantsperson.....	298
Evaluating Your Technology Program.....	299
The Purpose of Evaluation.....	299
When Should a Program be Evaluated?	299
The Components of the Evaluation Process	300
Looking Back	302
Looking Forward	303

Front Matter

Chapter 12 Computers, Education, and Society	304
Learning Outcomes	304
Computers, For Good or Ill, Are Transforming Our World.....	305
Extending the Capabilities of the Mind.....	306
Extending the Capabilities of the Body	308
Robotics.....	309
Help for the Disabled.....	310
Population Explosion.....	312
Species Extinctions and Climate Change	313
Education and the Information Society	314
Information Overload	314
Information and Wealth.....	315
The Place of Computer-Based Learning in Schools.....	315
Ethical and Legal Issues and Computers	317
Privacy Invasion	317
Computing Inequities: The Digital Divide	318
Security: Hacking and Cracking	321
Computer Viruses and Other Malware.....	322
Malware: Worms and Trojan Horses	322
Spyware and Spam.....	323
Trespass of Computer Systems	323
Money Theft (Embezzlement).....	324
Steps Schools Should Take to Secure Networks and Computers	324
A Final Note About Passwords.....	326
Looking Back	327
Looking Forward	328
Chapter 13 Reflections on Education for an Information Age	329
Learning Outcomes	329
Computers, Learning Theory, and Cognitive Development	330
Computers and Learning.....	330
Learning Theory	331
The Importance of Individualized Education.....	334
When Should the Computer be Used in the Classroom?.....	334
Computer-based Learning Enables the Teacher to Tailor the Learning Situation to Individual Student Needs	335
Computer-Based Learning Suits Children’s Desire to Control Their Own Learning	335
The Computer is an Invaluable Tool for Classroom Management.....	339
The Computer is the Best Writing Implement Invented Yet	339
Caveats Regarding Computer Use in the Classroom	340
Computers Should Not Be Used for Purely Passive Learning	340
A Computer Does Not Take the Craft Out of Writing	340

Front Matter	
Spelling Checkers Do Not Have All the Answers	340
Computers Cannot Replace the Teacher’s Skill and Experience	341
Computers Should Not Be Allowed to Take Away from the Teacher’s Responsibility for Careful Class Preparation	341
The Computer Can Be an Excellent Child Minder, But That is Not How It Should Be Used	342
Computers Should Not Be Used Purely As Electronic Page Turners.....	342
Computer-Integrated Teaching and Learning: The Pillars of Success	342
Pillar 1: Leadership Must Provide Active and Committed Support.....	343
Pillar 2: Selling is Better Than Telling	344
Pillar 3: Invest In and Train a Core Team of Teacher-Computerists	344
Pillar 4: Recognize That Technological Change is Fast and That Keeping Up-to-Date is Challenging and Essential	345
Pillar 5: All Teachers Receive On-going Training	345
Pillar 6: All Teachers Receive On-going Technical Support	345
Pillar 7: Use It or Lose It	346
Pillar 8: Parents and Students Are Actively Involved in the Evolutionary Process.....	347
Pillar 9 There Must Be Planned and Systematic Financial Investment In Technology-Integrated Teaching and Learning.....	347
Pillar 10 Technology is For All and Involves All in the Process of Lifelong Learning.....	347
Taking Care of the Teachers.....	349
Teachers Must Have Time	349
Teachers Must Have Ongoing Training.....	350
Teachers Must Have Logistical and Technical Support	350
A Final Word (from John Dewey)	351
Looking Back	352
Looking Forward	353
