

MATH 0240, Info for midterm 2

Kiumars Kaveh

November 3, 2014

- The midterm covers: 11.8, 12.1-12.8, 13.1-13.2, that is, Lagrange's multipliers, multiple integrals, and vector fields and line integrals.
- No calculators allowed.
- You are responsible to know the practice problems.
- There are 3 old midterms (with solutions) posted on the course website. The midterm will be similar to these.
