FROM: George E. Klinzing

DATE: June 15, 2011

SUBJECT: NIH/NCRR - *High-End Instrumentation Grant Program*

Please forward this new program announcement to NIH-supported investigators. NIH/NCRR has issued a new *High-End Instrumentation Grant Program (S10)* announcement and it is available at: <http://grants.nih.gov/grants/guide/pa-files/PAR-11-228.html>.

Guidelines state that there is no limit on the number of applications an institution may submit providing the applications are for **different** types of equipment. To assure, in advance of the deadline, that the University of Pittsburgh's applicants are requesting different equipment, please inform Elaine Riberich in the Office of Research (emr@pitt.edu) by **August 1, 2011** of your equipment request.

Please forward Elaine the following information:

- 1) indicate principal investigator assuming administrative/scientific oversight responsibility for the instrument **and** the department/school it will be submitted through
- 2) list the three or more investigators who are PDs/PIs on active NIH research grants with the following activity codes, P01, R01, U01, R35, R37, DP1, DP2 and any other investigators who will share the instrument
- 3) a description of the equipment
- 4) an approximate cost of the instrument or integrated instrument system

The final equipment list will be reviewed by Dr. Michelle Broido and me. Any similar equipment requests will be addressed.

University of Pittsburgh deadline: August 1, 2011
 NIH LOI receipt date: Not applicable
 NIH application due date: September 19, 2011
