PART OF A MONTH-LONG CELEBRATION OF UNDERGRADUATE RESEARCH AND CREATIVITY

**Department of Mechanical Engineering
and Materials Science**
**Senior Technical Symposium for Materials
Science and Engineering Physics**

April 3, 2008
8 a.m.–5 p.m.
1175 Benedum Hall

www.pitt.edu/~provost/undergrad_research.html

Materials science and engineering physics seniors are required to conduct experimental research on topics of interest. Under faculty supervision, each senior conducts a project involving literature search, planning, experimentation, and analysis. Results of their investigations are reported in written reports and oral presentations.
