PART OF A MONTH-LONG CELEBRATION OF UNDERGRADUATE RESEARCH AND CREATIVITY

Department of Industrial Engineering Capstone Design and Sponsor an Industrial Engineering Team (SAINT) Program Presentations

April 18, 2008

3–6 p.m.

1175 Benedum Hall

www.pitt.edu/~provost/undergrad_research.html

Presentations will demonstrate the application of industrial engineering analysis to solving operations, planning, and process problems that arise in different settings. Student project presentations include improving the operational effectiveness of UPMC shuttle services between different hospital and office locations, assessing energy consumption and use at UPMC hospitals, improving sustainability practices at UPMC facilities, and improving the checkout process at Giant Eagle stores.
