This undergraduate symposium will highlight the research findings of undergraduates in Spanish as well as those in related certificate programs and concentrations. Many aspects of Latin America will be discussed including: Latin American cultures, literatures, social movements, cinema, and visual arts. Presentations will be made in Spanish, Portuguese, and English.
The Tri-Beta Biological Honors Society and the Science Alliance will host an Undergraduate Research Poster contest. Any student researcher is welcome to participate, and prizes will be awarded for best posters. For questions, contact the Tri-Beta Research Committee at ser8@pitt.edu.

Biological Sciences Research Poster Contest
Tri-Beta Biological Honors Society and the Science Alliance
Langley Hall (Lobby)
March 30, 2006 from 11 a.m. to 1 p.m.

www.pitt.edu/~provost/undergrad_research.html
Psychology
Student Research Poster Session
Psi Chi, the National Honor Society in Psychology

4125 Sennott Square, Martin Room
April 1, 2006 from Noon to 3 p.m.

www.pitt.edu/~provost/undergrad_research.html

Now is the season to celebrate the research and creativity of undergraduates across the Pitt campus and beyond. The Psychology honors society for undergraduate students, Psi Chi, is hosting a student research posters session which will involve students from Pitt and other regional schools.
University Honors College Undergraduate Research Fair

William Pitt Union (Ballroom)
April 3, 2006 from 11:30 a.m. to 2 p.m.

This exciting interactive fair is an open house poster session where undergraduates from all disciplines display posters on their research. The audience participates in the event discussing points of curiosity with the presenters. The discussion that develops with the audience, as well as with other participants, is challenging and stimulating.

University of Pittsburgh
This competition is designed to provide undergraduate students from the University of Pittsburgh and other colleges in the region with advanced research experiences and opportunities to develop presentation skills. Research papers focusing on the study of Western or Eastern Europe can take a social sciences, humanities, or business perspective. Please email kpuccia@ucis.pitt.edu for more information.
This competition provides undergraduate students of all disciplines at CERIS member institutions with advanced research experience and an opportunity to develop presentation skills. Students are recognized for excellent scholarship in many areas of Islamic Studies including: languages, literatures, history, religion, law, politics, sociology, science, art and culture, language and literature. Please email EEL58@ucis.pitt.edu for more information.
Engineering Office of Diversity
MPE² Student Research Presentations

1175 Benedum Hall of Engineering
April 10, 2006 from 10–11:15 a.m.
and 1:30–3:30 p.m.

The Mentoring Program for Excellence in Engineering (MPE²) is an undergraduate research program that prepares students from groups underrepresented in the field of engineering for graduate education and professional careers. Faculty members mentor motivated undergraduate students through the completion of a research project. For more information, contact Michelle Topinka at 412-624-9625 or topinka@engr.pitt.edu.

www.pitt.edu/~provost/undergrad_research.html
Bachelor of Arts in Social Work Program Field Research Poster Session

William Pitt Union (Assembly Room)
April 10, 2006 from 11:30 a.m. to 2:30 p.m.

BASW students engage in 600 hours of service learning internship during their final two terms in the program. Implementation of a research project is one of the requirements of this internship. This poster session showcases the results of the students' research in social welfare agencies and community organizations.

University of Pittsburgh
Bioengineering
Undergraduate Intramural Research Symposium

1022 Benedum Hall of Engineering
April 14, 2006 at 2 p.m.

www.pitt.edu/~provost/undergrad_research.html

Bioengineering students have been working closely with faculty members on exciting research. These students will present on topics including nerve regeneration, characterization of artificial heart valves, biomechanics of human gait, and design of a micro-biaxial testing device. Please come out and show your support.

University of Pittsburgh
This competition provides recognition for excellent student scholarship from Pitt undergraduates of all disciplines. Topics addressed include: global issues and trends relating to sustainable development, global economy and global governance, changing identities in a globaled world, communication, technology, and society, conflict and conflict resolution, and global health. Please email lsa@ucis.pitt.edu for more information.
Arts and Sciences
First Experiences in Research
Student Poster Presentation
Ashe Auditorium Lobby and Balcony
Chevron Science Center
April 18, 2006 from 5 to 6 p.m.

www.pitt.edu/~provost/undergrad_research.html

This exciting event exhibits the insights and experiences of undergraduates in all disciplines of the Arts & Sciences involved with the First Experiences Program. Working side-by-side with faculty on research projects, these undergraduates develop an acute awareness of the research process. The event highlights their first research posters!
At Pitt, undergraduates get to take part in the development of new knowledge by working closely with senior, high performance faculty who are doing some of the most interesting research in the world. Now is the season to celebrate the research and creativity of undergraduates across the Pitt campus. Come out and show your support.
