

EVERY WOMAN
EVERY CHILD

**THE GLOBAL
STRATEGY
FOR WOMEN'S,
CHILDREN'S AND
ADOLESCENTS'
HEALTH
(2016-2030)**

Abdul Rehman Pirzado

THE GLOBAL STRATEGY FOR WOMEN'S, CHILDREN'S AND ADOLESCENTS' HEALTH (2016-2030)

The survival, health and well-being of
women, children and adolescents are
essential to achieving all the Sustainable
Development Goals (SDGs)

Vision

By 2030, a world in which every women, child and adolescent in every setting realizes their rights to physical and mental health and well-being, has social and economic opportunities, and is able to participate fully in shaping prosperous and sustainable societies.

High Returns on Investment

- Implementing the Global Strategy, with increased and sustained financing over the next 15 years, would yield tremendous returns:
- An end to preventable maternal, newborn, child and adolescent deaths, including stillbirths
- At least a 10-fold return on investments from social and economic benefits

High Returns on Investment

- At least 100 billion dollars in demographic dividends from early childhood development and adolescent health and well-being
- A "grand convergence" in health giving all women, children and adolescents an equal chance to survive and thrive

Guiding Principles

- Country-led
- Universal
- Sustainable
- Human rights-based
- Equity-driven
- Gender-responsive
- Evidence-informed
- Partnership-driven
- People-centred
- Community-owned
- Accountable
- Aligned with development effectiveness and humanitarian norms

- SURVIVE:

End Preventable deaths

- THRIVE:

Ensure Health and wellbeing

- TRANSFORM:

Expand enabling environment

SURVIVE: End preventable deaths

- Reduce global maternal mortality to less than 70/ 100,000 LB
- Reduce newborn mortality to at least as low as 12 /LB
- Reduce under-five mortality to at least as low as 25 /1,000 LB
- End epidemics of HIV, tuberculosis, malaria, neglected tropical diseases and other communicable diseases
- Reduce by 1/3rd premature mortality from non-communicable diseases and promote mental health and well-being

THRIVE : Ensure health and well-being

- End all forms of malnutrition and address the nutritional needs of children, adolescent girls, and pregnant and lactating women
- Ensure universal access to sexual and reproductive health-care services (including for family planning) and rights
- Ensure that all girls and boys have access to good-quality early childhood development
- Substantially reduce pollution-related deaths and illnesses
- Achieve universal health coverage, including financial risk protection and access to quality essential services, medicines and vaccines

TRANSFORM: Expand enabling environments

- Eradicate extreme poverty
- Ensure that all girls and boys complete primary and secondary education
- Eliminate all harmful practices, discrimination and violence against women and girls
- Achieve universal access to safe and affordable drinking water and to sanitation and hygiene
- Enhance scientific research, upgrade technological capabilities and encourage innovation
- Provide legal identity for all, including birth registration
- Enhance the global partnership for sustainable development

ACTION AREAS

- Country leadership

Reinforce leadership and management links and capacities at all levels; promote collective action.

- Financing for health

Mobilize resources; ensure value for money; adopt integrative and innovative approaches.

- Health systems resilience

Provide good-quality care in all settings; prepare for emergencies; ensure universal health coverage.

ACTION AREAS

- **Individuals' potential**

Invest in individuals' development; support people as agents of change; address barriers with legal frameworks.

- **Community engagement**

Promote enabling laws, policies and norms; strengthen community action; ensure inclusive participation.

- **Multisector action**

Adopt a multisector approach; facilitate cross-sector collaboration; monitor impact.

ACTION AREAS

- Humanitarian and fragile settings

Assess risks, human rights and gender needs; integrate emergency response; address gaps in the transition to sustainable development.

- Research and innovation

Invest in a range of research and build country capacity; link evidence to policy and practice; test and scale up innovations.

- Accountability

Harmonize monitoring and reporting; improve civil registration and vital statistics; promote independent review and multi-stakeholder engagement.

IMPLEMENTATION

Country led implementation supported by the Every Woman Every Child movement and an Operational Framework.

The power of partnership harnessed through stakeholder commitments and collective action.

We all have a role to play.

Thanks
